

*Will you be doing tomato starts again this year? They were so awesome last year . . . I wanted to know if I could place an order.  
All of our plants became huge and healthy and provided us with an abundance of delicious tomatoes. --Chris (happy 2015 customer)*

*Will filbert acres be selling tomato starts this year? They were amazing last year. - Kerra*

## ***PRE-ORDER TOMATO PLANTS!***

### **But why buy tomato plants from Filbert Acres?**

#### **Quality**

Stocky, healthy, with blossoms--our plants will be timed well with our northwest season and hardened off to minimize transplant shock. If you are going to spend the time to grow quality fruit, start right! (ORGANIC? Not certified, most organic seeds, all organic soil/inputs)

#### **Variety**

When you have some favorite varieties, it can be frustrating to find them at the right time to plant. Maybe the nurseries don't carry all the varieties you want at the right time and quality.

#### **Value**

The trip from the farm is the only traveling these plants will suffer, and with a little luck, they'll have some nice blooms and some tiny green fruit on them as you plant them into your garden.

### **But what is the catch?**

To get you this quality, to make these varieties available, and to do it at a great value, we need to plan ahead and start your tomato plants indoors by March 1. So you need to order now and pay at least half up front. We can only accept orders this year through **February 25<sup>th</sup>, 2017**.

### **But do I really have to act now?**

**Yes!!** Or you may sadly realize in May that you have to wait until next January to order!

**LET ME AT THEM! I WANT TO BUY NOW!** – please print and mail (or drop off) this form

Variety	Size, color	No. of plants
<b>Early Girl</b> – classic early performer for Pac NW, indeterminate	Med, red	
<b>Sungold</b> – a newer classic with unique tang, a favorite of all who taste it, indeterminate	Cherry, orange	
<b>Cougar Red</b> – new (-ish) from WSU, open-poll., grown and tested for cool summer/short season. Meaty, balanced flavor, vigorous, semi-determinate,	Medium, red	

<b>Black Prince</b> – from Russia, this indeterminate plant performs well in cooler regions, mahogany skin, green shoulders and florid, green/red striped flesh	Medium, dark	
<b>Sweet Millions</b> – heavy producer of sweet cherry tomatoes. Very disease resistant, early, great flavor, indeterminate	Cherry, red	
<b>Stupice</b> – cold-tolerant, sweet, red, slightly oval, consistently gets high marks for taste throughout the summer. From Czechoslovakia. Indeterminate	Medium, red	
<b>Green Zebra</b> – zesty flavor, green skin, mottled streaks. Consistent producer and one of our favorites. Indeterminate	Medium, green	
<b>Monica</b> – large performs well in Pac NW, our favorite Roma Determinate.	<b>Roma</b> , red	
<b>Juliet</b> - perfectly shaped, small, deep red oblong fruit. Born on heavy wide trusses with rich tomato flavor in every bite.	<b>Roma</b> , red	
<b>Sweet Hearts</b> – sweet grape with crack resistance, drop resistance. Indeterm.	Grape, red	
<b>Solar Flare</b> – beautiful red and gold striped tomato that is meaty and sweet.	Large, red	
<b>Cherokee Purple</b> – late or best for greenhouse, vigorous plants, purpl-ish fruit with green shoulders, an heirloom favorite. Indeterminate	Large, purple	
<b>Genuwine</b> – early-maturing indeterminate, a cross between Costoluto Genovese and Brandywine. Beautiful lobed fruit has great taste of an heirloom and the many strengths of a hybrid.	Large red	
<b>Pork Chop</b> – new from Wild Boar (breeding heirlooms for improved quality) Heavy yields, sweet beefsteak, striking yellow with orange shoulders. Osborne grower “blown away” by Pork Chop. Indeterminate	Large yellow <b>photo right</b>	
<b>Pink Berkeley Tie-Dye</b> – a new favorite from Wild Boar, nicely balanced between acid and sweet, disease resistance good; pink/purple with green metallic stripes	Large, red/green <b>photo left</b>	
Is there a variety not listed here and you want 10 or more? We can do that —please add \$5 fee for ordering off the menu _____
